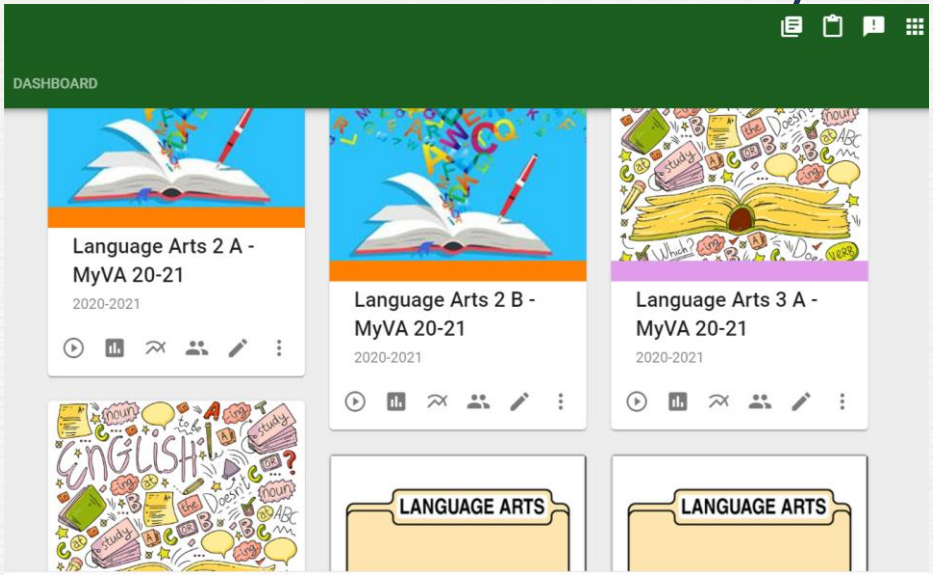
Climax-Scotts Virtual K-12 School

269-746-2102 Elementary
269-746-2302 Jr/Sr High School

All Coursework is located in Accelerate Education.

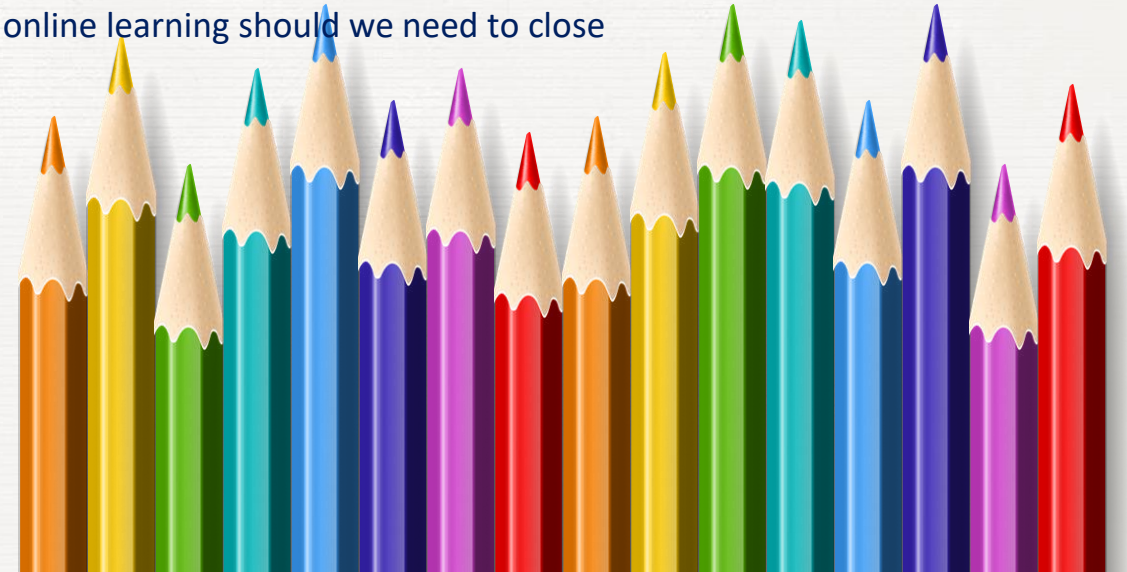
Easy to use links are used for special programs like Reading Eggs, or any testing links. We always link them out.

What does Accelerate look like? Kid friendly..

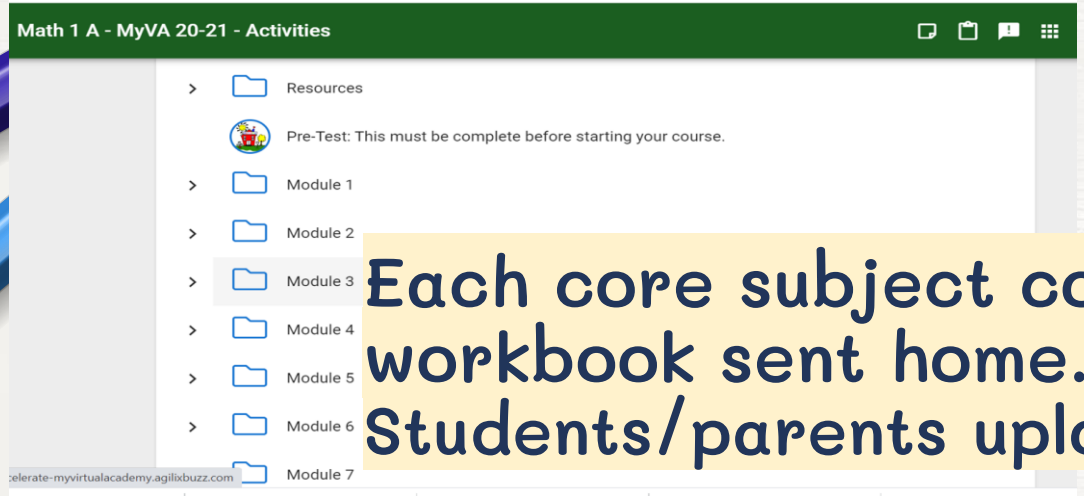


What Does Accerlate Look Like In Our In Person Daily Teaching?

Accelerate will be added into our regular curriculum for some lessons. For example, a teacher may do a math lesson from our Math Expressions one day, then choose a math lesson following the same sequence from Accelerate the next day. This will promote a more seamless transition to all online learning should we need to close



What does Accelerate look like? Separated into weeks/days



Each core subject comes with a student workbook sent home.
Students/parents upload their book work.

Assessments:

We use exact path in Edmentum (just like 6-12) in the Fall, Winter and Spring as our diagnostic testing. The students may work in the exact path prescription path depending on needs.
Weekly quizzes, and benchmarks in accelerate. Lots of informal assessment through conversation.

Communication:

We use zoom as our main form of communication. 2 contacts per week, plus tutoring on an as needed basis. We also use a tutor if the student needs additional sessions.

Reports:

We update the parents with weekly progress. There is not a daily "report" we send out, we instead look at the week as a whole.
Accelerate shows time on task, as well as progress, and performance.
Parents can log in to see as well.
